

International Students

The campus boasts well-constructed hostel blocks for both boys and girls. The rooms are fully furnished, and the hostels offer various facilities such as free high-speed Wi-Fi, a gymnasium, and a 24/7 open medical center. Additionally, each hostel has healthy atmosphere for the students, who are far away from their parents. Each hostel has an activity centre, common room, reading room, mess, canteen and other basic amenities like hot water supply in winter.

For sports and recreational activities, students have access to a gym and can participate in various sports such as volleyball, cricket, and football.

To ensure the safety of all hostel students, the following security measures are in place:

- Security checkpoints at the main gates of each hostel.
- A dedicated security guard stationed at each hostel building.
- A female warden assigned to the girls' hostels.

Hostel Type	Cost per year (USD)
